3. Wellbeing and engagement strategies

White Hills Primary School has developed a range of strategies to promote engagement, positive behaviour and respectful relationships for all students in our school. We acknowledge that some students may need extra social, emotional or educational support at school. The teachers at this school work collectively to ensure that all students feel valued and cared for, have meaningful opportunities to contribute to the school and can effectively engage with their learning. This school recognises the need to be engaging and inclusive, recognising and responding to the diverse needs of our students, accommodating different learning profiles and rates of learning and intervening early to identify and respond to individual student needs.

The school works collaboratively with students and parents/carers to establish fair and respectful behaviour policies and practices, based on the school's values and school expectations. There are also intervention strategies in place to address undesirable school behaviour.

A summary of the universal (whole of school), targeted (year group specific) and individual engagement strategies used by our school is included below:

School-Wide Positive Behaviour Support:

White Hills Primary School have adopted the School-Wide Positive Behaviour Support (SWPBS) as a whole-school framework. The framework provides staff with an approach to promote and improve behaviour at their school. SWPBS is an evidence and data driven framework. It demonstrates the most effective ways to prevent and respond

to problem behaviour at school. Research has shown that SWPBS is successful in reducing problem behaviour, improving school culture, and increasing academic performance.

For more information on SWPBS see;

<https://www.education.vic.gov.au/school/teachers/management/improvement/Pages/swpbs.aspx>

SWPBS is:

- A broad range of systemic and individualised strategies for achieving important social and learning outcomes while preventing problem behaviour with all students
- The redesign of environments to achieve success
- The teaching of specific behaviour expectations, not reacting to problem behaviour
- About what we do differently to teach children about appropriate social and learning behaviour
- Designing a statement of purpose, Expectation Matrix that the whole school uses to teach students about appropriate behaviour

Attendance:

White Hills Primary School will promote and maintain high levels of student attendance and participation through:

- articulating high expectations to all members of the school community
- adopting consistent, rigorous procedures to monitor and record student absences
- following up student absences promptly and consistently
- implementing data-driven attendance improvement strategies
- creating safe, supportive learning environments where all students experience success through active participation and engagement in purposeful learning
- providing early identification of, and supportive intervention for, students at risk of non-attendance
- linking with local community groups and agencies to maximise program and individual support
- providing a staged response

Buddy Program:

The White Hills Primary School Buddy program is designed to provide support between junior and senior students. We believe that the program is an effective educational tool and can improve the relationships in the school. Students from grades 5 will be paired up with a prep student. Teachers meet to organise a time to meet on a weekly basis. The Buddy program empowers students to grow in confidence and responsibility. Activities are designed to enhance communication skills, relate positively with others and build on students' self-awareness and self-esteem.

Resilience, Rights and Respectful Relationships

The *Resilience, Rights and Respectful Relationships* curriculum teaches positive relationship skills to students in primary and secondary schools. Promoting social and emotional skills and positive gender norms directly impacts students' physical and mental health, student-teacher relationships and classroom behaviour. It also reduces antisocial behaviours including engagement in gender-related violence.

Energy Breakthrough Team:

The Energy Breakthrough provides opportunities for students, teacher, parents and local community members to work together. Interested students in Grades 5 and 6 have the opportunity to be selected as part of a team to participate in the Energy Breakthrough team. The school participates in races across the region throughout the year, including the 24 hour race in Maryborough.

Student Voice:

Student voice/student participation is about valuing people and valuing the learning that results when we engage the capacities and multiple voices in the school. It focuses on realising the leadership potential inherent within all learners. There are four dimensions to student participation:

1. student involvement in school and community development
2. students as researchers and co-enquirers
3. student feedback on teaching and learning

The school promotes active 'student participation' as an avenue for improving student outcomes and facilitating school change. Student participation ranges from young people sharing their opinions of problems and potential solutions in classroom forums and in focus groups associated with school strategic planning. It also includes our students sharing their 'voice' by collaborating with teachers to actually improve education outcomes, including helping to improve teaching, curriculum and teacher-student relationships and leading to changes in student assessment.

Transition Program:

At White Hills Primary School, we aim to provide a smooth and efficient transition from kindergarten to primary school and from Year 6 to secondary school. Our school appoint staff members to coordinate both our Foundation and Year 6 to Year 7 transition programs. Both coordinators communicate with both the Kindergarten and Secondary school to ensure all students successfully integrate into their new learning environment. Information evenings occur in May for new prep families, followed by an additional session in November. Children with additional needs are supported by extra transition days and meetings are organised to discuss programs and resource requirements. Transition visits will consist of familiarisation tours of the school, activities in classrooms and specialist lessons in November. For students transitioning into Secondary schools, White Hills Primary School provides an extensive program incorporating regular visits to the secondary school. Aligned with the state-wide procedure, all students participate in an Orientation Day in December for the following year's placement. Parents are informed about the school's programs, procedures, and are provided with an opportunity to ask questions and to have discussions regarding their child.
